

Tax Certificate Update Instructions

As we prepare for the CIS integration, we need updated state sales tax certificates made out to TD SYNEX to validate exempt purchases from TD SYNEX.

For your convenience, we have included the following link to the Multistate Uniform Certificate (MTC) as well as the individual state forms not on the MTC:

<https://content.tdsynex.com/reseller/secure/commerce/promos/files/New-Sales-Tax-Certificate-Package-with-Intro.pdf>

Several states (including IL, IN, LA, NY, PA, VA, WI, WV and WY) require their state-specific resale certificate or No Nexus statements to be completed if you are not registered.

- Please complete and return these forms to include all sales/use tax registrations for your company regardless of registration if having product delivered into these states.
- Please complete the appropriate forms with all required tax numbers by January 31, 2024, and email them to TaxDocs@tdsynex.com.
- Please include "GOOGLE" in the subject line.

To streamline the updates to your new TD SYNEX account, please include your new TD SYNEX account number as well as your existing Tech Data account number with the submission of your updated documents.

If you have any questions, please contact the TD SYNEX Tax department at (800) 237-8931, ext. 5387814 or Tax@tdsynex.com.
